RETIREMENT
WHEN YOUR CLIENT'S LIFELONG HOBBY FINALLY MATURES INTO HIS FULL-TIME PROFESSION.

As a financial advisor, completing a client's retirement picture takes choosing all the right pieces.

Every client has unique retirement dreams. Since 1924, MFS has been committed to giving financial advisors a diverse range of investment options to fill distinct roles within each investment portfolio. MFS understands that no one size fits all. Change in all respects. So we put thought into what your client's really. Find Out at MFS.com/InvestorMatters or call 1.800.343.2629 x41924.

Before investing, consider the fund's investment objectives, risks, charges, and expenses. For a prospectus containing this and other information, contact your investment professional or visit mfs.com. Please read it carefully.

CHOOSE WHAT FITS™

Influenza makes office calls.

Health care workers used influenza vaccinations, too.

Flu vaccine is essential protection for you and your patients, especially those at high risk. Without it, you can infect patients, even before you show any symptoms. Protect yourself and your operations and set a good example by being vaccinated. So do show the way to a safe and effective, while helping disrupt myths that it causes influenza or various side effects.

Influenza can kill. Flu shots save lives.
