 Hair: Brown Eyes: Blue

If you can draw a map to every bathroom in town...

Today

is the day to talk to your doctor about overactive bladder and TOVIAZ® – a pill that comes with a plan.

With Toviaz® (fesoterodine fumarate) and the plan, you're helping manage your overactive bladder (OAB) symptoms in two ways:

- with a pill created to help reduce symptoms all day and all night*
- and a plan that offers you practical tips, tools and resources to help you take an active role in your treatment.

The plan focuses on four core areas:

- 1. **Food & drink** (avoiding bladder irritants)
- 2. **Teach your bladder** (bladder retraining)
- 3. **Daily Toviaz®** (taken once a day)
- 4. **Keep track** (of your symptoms)

Visit Toviaz.com or call 1-877-TOVIAZ-9

*Results may vary.

Toviaz® treats the symptoms of overactive bladder (leaks, strong, sudden urges to go, going too often).

Important Safety Information
 If you have certain stomach problems, glaucoma, or cannot empty your bladder, you should not take Toviaz. Medicines like Toviaz can cause blurred vision, drowsiness, and decreased sweating. Use caution when driving, doing unsafe tasks, or in especially hot environments, until you know how Toviaz affects you. Drinking alcohol while taking medicines such as Toviaz may cause increased drowsiness. The most common side effects are dry mouth and constipation. Toviaz has benefits and risks. There may be other options. You're encouraged to report negative side effects of prescription drugs to the FDA. Visit www.FDA.gov/medwatch or call 1-800-FDA-1088.

Toviaz®
 fesoterodine fumarate
extended-release tablets, 6mg and 9mg
