if you can draw a map to every bathroom in town...

**Today**  
is the day to talk to your doctor about overactive bladder and TOVIAZ<sup>®</sup> – a pill that comes with a plan.

With Toviaz (fesoterodine fumarate) and the plan, you're helping manage your overactive bladder (OAB) symptoms in two ways:

- with a pill created to help reduce symptoms all day and all night!
- add a plan that offers you practical tips, tools and resources to help you take an active role in your treatment.

Visit [www.toviaz.com](http://www.toviaz.com) or call 1-877-TOVIAZ-9

**Remember:**

- The plan focuses on four core areas:
  - **Need & Drink**
  - **Watch Your Bladder**
  - **Relax Your Bladder**
  - **Help Track**

**Important Safety Information**  
If you have certain stomach problems, glaucoma, or cannot empty your bladder, you should not take Toviaz. Medicines like Toviaz can cause blurred vision, drowsiness, and decreased sweating. Use caution when driving, doing unsafe tasks, or in especially hot environments, until you know how Toviaz affects you. Drinking alcohol while taking medicines such as Toviaz may cause increased drowsiness. The most common side effects are dry mouth and constipation. Toviaz has benefits and risks. There may be other options.

You're encouraged to report negative side effects of prescription drugs to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch) or call 1-800-FDA-1088.
